

**TOG USA, Inc.** is a wholly-owned US marketing and distribution subsidiary of **THAI OPTICAL GROUP PUBLIC COMPANY LIMITED (TOG)**, the largest Thai manufacturer and distributor of ophthalmic lenses. TOG is one of the leading, global, **INDEPENDENT** lens manufacturers, focused on **INNOVATIVE** **COST-EFFECTIVE** and **RELIABLE** solutions.

## OVER 60 YEARS OF EXPERIENCE IN THE OPHTHALMIC LENS BUSINESS

### TOG USA, Inc. ("TOG USA") TERMS AND CONDITIONS

**TERMS:** All invoices in any calendar month shall be paid by the 10th of the next month. Accounts 30 days past due are assessed a 1.5% finance charge monthly. All past due accounts are subject to credit hold at the discretion of TOG USA.

**RETURNS AND REPLACEMENTS:** All products returns must have Authorization Number obtained through TOG USA. To get Authorization Number email [returns@togusainc.com](mailto:returns@togusainc.com) with a description and reason for return. Once approved please send back returns to: TOG USA INC, 3016 W. Georgia St. Louisiana, MO 63353

All returns must be in original packaging and could be subject to a 25% restocking fee at the discretion of TOG USA.

**CLAIMS:** Claims for shipment errors or lost shipments are to be reported within 1 week of receipt or due date of receipt.

**SHIPPING:** FedEx is the primary shipping choice for TOG USA. Rates are available upon request.

#### PAYMENTS:

• **ACH & Wire Transfers:** All ACH payments will be made on the 10th of each month. To setup ACH & Wire Transfer please contact your TOG USA sales rep.

• **Checks:** All check to be sent to: TOG USA INC, PO Box 522 Louisiana, MO 63353

*For more information on payments please contact your TOG USA sales rep or email [customerservice@togusainc.com](mailto:customerservice@togusainc.com)*

To better protect your eyes and vision into the future, make the smartest choice for your corrective lens material - **Bluloc™**.

RAY ABSORPTION BY AN ADULT EYE WITH **BLULOC™**

TRANSMITTANCE OF **BLULOC™** LENS MEASURING 2mm IN CENTER THICKNESS

**COMPLETELY BLOCKS HARMFUL UVA/UVB**

**95%**

**HARMFUL RAYS FILTERED OUT**

**100% BENEFICIAL LIGHT PASSES THROUGH**

## Why are UV & HEV lights damaging to the eyes?

Ever-increasing time spent on digital devices can lead to digital eyestrain, and its following detrimental effects:

### Short-term

#### DIGITAL EYESTRAIN

DRY EYES

BLURRED VISION

HEADACHES

### Long-term

#### • = DEAD CELLS

RETINAL DAMAGE

RAY ABSORPTION BY AN ADULT EYE WITHOUT **BLULOC™**

### How does this happen?

- Digital screens expose the eyes to high-energy visible light (HEV) within the 400 to 500nm wavelength, as well as the sun and LED light.
- From 400 to 420nm HEV light is the most harmful, and reduces lutein within the eye, which is known as the eye vitamin.
- Repeated and prolonged exposure to harmful HEV light, can contribute to retinal damage.

## Live Visibly Better With **Bluloc™**

# What is LeafECO® ?

LeafECO®, by TOG, is an environmentally-friendly ophthalmic lens, made from 82% bio-based content. In conjunction with Mitsui Chemical, Inc., TOG manufactures LeafECO® lenses with the DoGreen™ bio-based monomer. The LeafECO® lens material uses palm oil from certified palm oil trees, in Thailand, rather than petroleum, and provides exactly the same lens specifications as ordinary plastic lenses.

Living an eco lifestyle can help save the planet in the fight against global warming, by reducing CO<sub>2</sub> emissions. 'LeafECO®' lenses reduce CO<sub>2</sub> emissions by 326 kg in production.

Having a clear view of the world is important to you, but so too is a greener planet is important for everyone. LeafECO® lenses makes a visible difference.
